FRANCIES FERNANDES

FRONT END DEVELOPER

07438 618585 ▪ francies.quebert@gmail.com ▪ London, Hayes UB3 3ES

CAREER OBJECTIVE

As an ambitious and dedicated Front-End Developer with a specialization in React.js, my goal is to leverage my technical expertise and creative mindset to design and develop captivating user experiences that push the boundaries of web applications. Driven by a passion for innovation, I strive to contribute my skills in crafting intuitive and visually appealing interfaces that enhance user engagement and satisfaction.

As a Front-End Developer, my objective is to continuously refine my skills, embrace challenges, and deliver solutions that not only meet but exceed client expectations. Through constant learning and growth, I seek to make a significant impact on the digital landscape, while embracing teamwork and innovation to create meaningful and user-friendly digital experiences for global audiences.

EXPERIENCE

FRONT END DEVELOPER   Hamilton Capital Holding Limited
London   *May 2022 - May 2023*

- Developed and maintained the Front end components of the Himalaya Exchange platform, ensuring a seamless and visually appealing user experience.

- Participated in agile development processes, attending daily stand-ups and sprint planning meetings to contribute to project planning and progress tracking.

- Developed comprehensive unit tests using testing frameworks like Jest and React testing library to ensure the reliability and correctness of React components and functions.

- Collaborated with cross-functional teams, including designers and backend developers, to understand project requirements and translate them into scalable and efficient front-end solutions.

- Demonstrated strong problem-solving skills and attention to detail, resolving front-end-related challenges and continuously improving the platform's usability and functionality

- Collaborated with designers to create intuitive user interfaces for both mobile and desktop platforms.

WEB DEVELOPER   Skyelint Technologies
Mumbai   *October 2019 - February 2022*

- Implemented best practices and followed coding standards to maintain a clean and maintainable codebase, resulting in improved team productivity and reduced bug occurrences.

- Developed reusable and modular components to streamline development processes and accelerate future project iterations.

- Built reusable React components using JSX, props, state and hooks. This promoted code reuse across projects.

- Developed and consumed REST APIs using Node.js and Express to integrate frontend UI components seamlessly with backend services and databases including MongoDB and MySQL.

- Demonstrated versatility and adaptability by concurrently working on multiple projects, effectively managing time and priorities to meet tight deadlines and deliver high-quality results.

- Mentored junior developers, sharing knowledge and encouraging professional growth within the team.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
Valia College of Arts, Commerce and Science   *April 2019*

HIGHER SECONDARY CERTIFICATE
St. Xaviers Junior College   *February 2016*

SECONDARY SCHOOL CERTIFICATE
St Blaise High School   *March 2014*

SKILLS

- React.JS
- Redux
- JavaScript (ES6 / ES2015)
- HTML / HTML5
- Jest / React testing library / Cypress
- Gatsby
- Express.Js
- MongoDB
- Cross Browser Compatibility
- Webpack
- Cloud AWS
- Git
- CI/CD

- React Native
- Typescript
- CSS / SCSS / TailwindCSS
- Bootstrap
- Next.JS
- Node.JS
- MySQL
- GraphQL
- Interface Design and Implementation
- Babel
- Docker
- GitHub
- Scrum

CERTIFICATIONS

- React with Test Driven Development
- React Testing Library and Jest: The Complete Guide
